**WE ARE THE JOINERY EXPERT**

## Company Overview

**MELWOOD IS VICTORIA'S  
LEADING COMMERCIAL  
JOINERY CONTRACTOR.  
DISCOVER THE  
DIFFERENCE WITH OUR  
INDUSTRY-DEFINING  
OFFICE, HOSPITALITY AND  
EDUCATIONAL FIT-OUTS.**

### OUR DIFFERENCE

Melwood is a Melbourne-based joinery contractor specialising in delivering high-quality joinery solutions to the education and commercial fit-out sectors. Focusing on these niche markets allows us to thrive in high-pressure environments with tight deadlines, consistently ensuring that every project exceeds our clients' expectations.

Founded in 2021 by Lee Davidson and Neil Milne as part of MD Group, Melwood combines Lee's expertise in custom joinery manufacturing with Neil's extensive carpentry experience across residential and commercial spaces. Their expertise and passion are highlighted in the company's ability to consistently create high-end, custom solutions in every project.

From design and manufacturing to installation, all work is carried out at our state-of-the-art factory in Braeside, ensuring precision and strict quality control at every stage. Our well-organised, process-driven approach, coupled with strong client relationships, guarantees seamless project execution from start to finish.

Whether large or small, each project receives the same commitment to excellence. At Melwood, we take pride in building lasting relationships with our clients, offering not only top-quality craftsmanship but also reliability, professionalism, and a friendly, approachable attitude.

## Our services

### 01 CUSTOM JOINERY

Our use of high-quality materials combined with innovative techniques guarantees that your custom joinery will not only be beautiful but also durable and timeless.

### 02 STONE

Integrating stone into joinery can create stunning pieces for kitchens, bathrooms and many other features of commercial fit outs, to enhance the beauty and functionality of any space.

### 03 SOLID SURFACES

Our skilled craftsmen ensure precise fabrication and installation of solid surfaces, resulting in a flawless finish that stands the test of time. We use Corian, known for its durability, versatility and aesthetic appeal.

### 04 METAL WORKS

Incorporating metal components into wooden furniture or structures adds strength, durability and aesthetic appeal to the joinery pieces.

### 05 UPHOLSTERY

Our upholstery services ensure durability, comfort and adds warmth and personality to our joinery.

### 06 2 PACK PAINTS

Our 2 Pac paint service involves applying a two-component polyurethane coating that provides a hard-wearing and lustrous finish.

## Industries we serve

Melwood Joinery caters to commercial office, hospitality and education clients, delivering custom joinery solutions that meet diverse needs across various sectors, ensuring quality and reliability in every project.

**Education:** Mt Alexander College

**Commercial Fit Out:** Creative Cubes, Collingwood

**OUR EXPERTISE**

**What our clients say**

**DAVE TAYLOR**

Pre-Construction Project  
Manager, Amicus

“Melwood will always be my go-to joinery subcontractor - we have used them for countless office fitouts, and they are extremely professional and have great communication - quality is first class! ”

**BRAD MCCORMACK**

Director  
McCormack

“Dealing with Melwood has always been a fantastic experience for me. From start to finish of every project we have worked on together, their professionalism and attention to detail have been truly impressive. ”

**FRANCIS ORSI**

Senior Project Manager,  
Merit Interiors

“I have been working with Melwood across numerous projects since their initial establishment and I cannot condone both their efficiency and craftsmanship enough. Melwood continuously invest in the best people, machinery and latest industry technology which leads them to excel in all aspects of joinery. ”

**YIANNI TOUMANIDIS**

Project Manager  
Newpol

“I have completed multiple commercial joinery projects with Melwood and have only had really positive experiences with the team. The team are great to deal with, and they are really good at providing effective solutions to design issues and obstacles as they arise. ”
